Simulate API

Documentation

Description

This API allows taxpayers with active tax obligations but no taxable income during a specified period to submit a Nil Return.

📌 Overview

To successfully invoke this API, you must first generate an **access token** via the Authorization API. This token must be included as a Bearer token in the Authorization header of your API request.

This guide includes:

- How to generate the access token
- How to use the token in the API request
- Request/response examples
- Error handling
- Sample data section for testing

▶

🔐 Step 1: Generate Access Token (Authorization API)
